Responsible Bidder Determination Forms on the web

Beginning January 1, 2006, all public entities awarding public improvement contracts to the lowest responsible bidder must complete and submit a Responsible Bidder Determination form to the Construction Contractors Board (CCB) within 30 days of the award. (2005 Oregon Legislature Senate Bill 1006)

The CCB has developed a web-based entry system that includes the Responsible Bidder Determination Form, the ability to search previously entered determination forms and a frequently asked questions (FAQ) help area.

ORS 279C.375 states, "After bids are opened and a determination is made that a public improvement contract is to be awarded, the contracting agency shall award the contract to the lowest responsible bidder."

The CCB web-based determination form provides the checklist of requirements mandated by SB 1006 that is needed to determine responsibility. If the lowest bidder is determined not responsible, documentation will be required as to the reason for the not responsible determination and the location where this supporting documentation can be found.

Public entities awarding public improvement projects will be required to register information for each user that will complete the determination forms.

Registration is not required by interested parties to search previously entered forms.

Access the responsible bidder website at www.ccb.state.or.us and click on Responsible Bidders Reporting SB 1006 in the "What's New" section.
